

# Hotshot

## Product Benefits:

- High yields fall harvest in Desert and Huron
- A high quality and versatile product for the box or bulk grower/shipper
- Peace of mind when planting in a period of unknown soil situations

## Product Features:

- Intermediate Resistance to Lettuce Fusarium, Race 1
- Large frames
- Strong heading
- Thick texture

## Competitors:

- El Guapo
- Prescott
- Sun Quest/Sun Devil

VARIETY: Hotshot

TYPE: Iceberg

REGION: Desert & Huron

WET DATES\* by planting area:

Huron: 8/21 - 9/1

Desert: 9/15 - 9/25

Hotshot is a medium to large heading iceberg type. Slotted for early fall harvest in the Desert and Huron regions. With a time period that is very demanding on a variety to produce quality lettuce, and to resist Lettuce Fusarium, Hotshot is truly one of a kind in its class. Its resistance to Lettuce Fusarium Race 1 and superior Horticultural traits will give you high yields with a quality pack.

\* Information provided is suggested, based on trial results to date. Performance may vary under different field conditions and cultural practices. Always consult with your Pinnacle Seed representative for specific information about your particular growing situation.

Hotshot is the exclusive property of Pinnacle Seed, Inc. Under no circumstances shall the seed or plants grown from the seed be propagated, reproduced, multiplied or distributed without express written consent from Pinnacle Seed, Inc.

US Patent: Pending
