Product Features:

- Large head size
- Tip burn tolerance
- Big vein tolerance

VARIETY: Elevate (1512)

TYPE: Iceberg

REGION: Salinas

WET DATES* by planting area:

Salinas: 1/5 - 3/15

Elevate (1512) is a large heading iceberg type for spring and early summer harvest in coastal regions of California. In multiple trials it has shown superiority over the competition, with its high yielding features of large head size, big vein tolerance and tip burn tolerance. Elevate (1512) will take your yields to a new high with its top-notch genetic package and Pinnacle Seed's quality control program.

*Information provided is suggested, based on trial results to date. Performance may vary under different field conditions and cultural practices. Always consult with your Pinnacle Seed representative for specific information about your particular growing situation.

Elevate (1512) is the exclusive property of Pinnacle Seed, Inc. Under no circumstances shall the seed or plants grown from the seed be propagated, reproduced, multiplied or distributed without express written consent from Pinnacle Seed, Inc.

US Patent: Pending
