

# Haymaker

## Product Benefits:

- High yield for most difficult harvest window in the spring transition in the Desert and summer/fall harvest season in the Central Coast regions
- A versatile product that can be utilized for both box and bulk markets

## Product Features:

- Uniformity
- Strong heading
- Slow bolting
- Thick texture

VARIETY: Haymaker

TYPE: Iceberg

REGION: Desert & Salinas

WET DATES\* by planting area:

Yuma: 12/5 - 1/15

Salinas: 5/1 - 8/5

Haymaker is a superior and uniform iceberg variety for some to the most difficult harvest windows. Its uniformity, texture, low core, complete head coverage, and holding ability make it a “TKO” in its ideal harvest windows. Haymaker is a favorite for growers and shippers that harvest either box or bulk iceberg.

\* Information provided is suggested, based on trial results to date. Performance may vary under different field conditions and cultural practices. Always consult with your Pinnacle Seed representative for specific information about your particular growing situation.
