- Thick texture
- Dark green color
- Corky root
rot resistant

VARIETY: Hercules (1103)

TYPE: Iceberg

REGION: Salinas

WET DATES* by planting area:

Salinas: 3/15 - 7/15

Hercules is a medium to large heading iceberg type for the late spring through summer harvest in the Central Coast regions. Through multiple trials and split blocks, it has shown superiority in yield uniformity, strong heading, thick texture and overall appearance. Hercules is a superior iceberg variety that is dependable for a fancy looking pack.
